

DISCOVER THE SYNERGY OF LANE'S INTEGRATED FAX MESSAGING SOLUTION NOW AVAILABLE IN THE EPIC CONNECTION HUB

The Epic Connection Hub serves as a centralized location where users can search for and integrate with approved third-party products and services.

Through this platform, users have access to powerful applications that streamline clinical data communication through faxing. Our Lane Passport Integration with the Epic solution allows Epic users to send patient healthcare records directly from Epic Print Services (EPS).

Get Started Now

You can find our app on the [Downloads](#) page (accessible to Epic customers only) and search for the Lane app using our client ID:

- **Non-Production Client ID:**
340f2ee2-f71d-4722-83f0-1483a20fdf94
- **Production Client ID:**
9c60d455-a624-4149-a874-8bd07014e84f

Lane is recognized globally as a leader in secure messaging communications and fax integration for healthcare companies. Lane aims to exceed expectations by applying robust and tailored solutions that yield tangible results for their clients. Contact our team to learn more or get started in the Epic connection hub.
