5 BENEFITS OF LANE IN THE EPIC CONNECTION HUB

Our team at Lane has worked diligently to expand our offerings and joining the Epic Connection Hub is a huge milestone. The Connection Hub serves as a centralized location where Epic users can search and integrate with approved third-party products and services. Read the 5 benefits that working with both Lane and the Epic Connection Hub can give your organization.

24/7 Support with Lane's Team

1 By using Epic Connection Hub through Lane's integration, you will be able to have full-access into the Lane support team. Our team has worked for nearly 50 years serving customers.

Easy Set-Up and Accessibility

2 Using Epic Connection Hub is a simple sign-up process. Just click the link and immediately get started by searching for the Lane app using our client ID:
• Non-Production Client ID: 340f2ee2-f71d-4722-83f0-1483a20fdf94
• Production Client ID: 9c60d455-a624-4149-a874-8bd07014e84f

Have the Best of Both Worlds

3 The Connection Hub allows you to work with both Epic and Lane! Now, if a facility migrates from any EHR or LIS software to Epic, they are still able to integrate seamlessly with Lane's Passport application. You don't have to choose and you can get top-notch support and features from both organizations.

Cost Scaling

4 This connection allows your organization to consolidate or eliminate complex and resource-strained fax environments and costs. Lane's affordable solution makes it an easy sell to work with Lane and Epic.

High Security

5 Both Lane and Epic are highly secure organizations! Lane is both ISO 27001 and HIPAA Compliant and continually reviews security measures to ensure all faxes are sent securely.

Clinical laboratories stand to gain tremendous advantage with Lane's new integration, as its audit and diagnostic logs allow for improved visibility in clinical operations. Get started today!
