

IMPROVE HEALTHCARE BILLING AND COMMUNICATION: LANE + XIFIN PARTNERSHIP INTEGRATION

Xifin is a health information technology company that leverages diagnostic information to improve the quality and economics of healthcare. The Xifin technology platform facilitates connectivity and workflow automation for accessing and sharing clinical and financial diagnostic data, linking healthcare stakeholders in the delivery and reimbursement of care.

Lane's integration allows for systems to fax billing statements connected through Lane's faxing solution and Xifin's billing platform. This is controlled through file API & SFTP. Leverage Lane's flagship product Passport to easily integrate into Xifin to send and receive patient information related to billing.

Are you utilizing Xifin today and want to take advantage of our faxing solution?

Talk to our team at Lane to integrate Xifin and Passport today.

Benefits of Our Partnership & Integration

- Connection from laboratory to billing system
- One solution for multiple platforms
- Revenue cycle management solution
- Simplicity of consolidating platforms that can talk to each other via an API
- Access to Lane's World-Class Support Team
- Facilitate the exchange of crucial patient data required for billing processes
- Efficient transmission of patient results
