

RELIABLE, SECURE AND HIGH-QUALITY FAXING

LANE + T.38 PARTNERSHIP INTEGRATION

Lane and T.38 have partnered to streamline faxing for organizations. Lane serves as a reseller partner as well as an integration partner of T.38 fax to ensure customers have options.

T38Fax.com is a T.38 Fax over IP (FoIP) service provider that offers PSTN termination and origination (fax sending and receiving) over SIP trunks that have been optimized to offer extremely reliable faxing over both WAN and LAN connections.

T.38 Fax has been utilizing the interoperability of Lane's Passport fax system component with their Power-T.38 service for years. This further ensures healthcare, financial services and enterprise customers can experience predictable, reliable, secure and high-quality faxing.

Are you utilizing Dialogic SR140 or a Virtual Fax Card today and want to take advantage of our faxing solution? Talk to our team at Lane to integrate T.38 and Passport today.
