

# INTELLIGENT CAPTURE FOR DOCUMENT MANAGEMENT

Lane, in partnership with fellow Dura company, Paperwise, has integrated Intelligent Capture technology into their comprehensive suite of features aimed at enhancing document management processes. This innovative technology not only boosts efficiency and ensures compliance but also significantly reduces errors inherent in traditional faxing methods. Intelligent Capture introduces a multitude of enhancements tailored specifically for users and organizations relying on fax for document management.

Intelligent Document Capture stands at the forefront of modernizing document workflows, offering organizations a transformative leap toward efficiency, compliance, and error reduction. By seamlessly converting faxed documents into digital format, Lane's intelligent document capture technology eliminates manual data entry, enhances data precision, and unlocks new levels of accessibility and strategic decision-making.

Embrace the future of document management with Lane's Intelligent Capture, and experience streamlined workflows that propel your organization forward.
